Deepanshi Nawghare

Frontend Developer (React.js)

📞 8989517355, 6265308543   ✉ nawgharedeepanshi@gmail.com   🌐 deepanshi-nawghare-portfolio.netlify.app

Frontend Developer with over one year of hands-on experience building responsive web applications using React.js, JavaScript, HTML, and CSS. Most of my work involves creating clean user interfaces, improving layouts, and integrating frontend features with backend APIs. I focus on writing maintainable UI code, understanding requirements, and providing user-friendly solutions.

Experience

Web Developer – Fovty Solutions   *March 2024 - Nov 2025*

Worked on responsive web applications using React.js, JavaScript, HTML, and CSS. Converted design mockups into interactive UI, created reusable components, and integrated APIs for dynamic content. Focused on improving usability, performance, and overall user experience.

React.js Intern - Insta Dot Analytics   *Oct 2023 - Jan 2024*

Developing dynamic web applications utilizing React.js, focusing on creating responsive, user-friendly interfaces. Implemented various UI improvements to enhance user interaction, accessibility, and overall responsiveness, ensuring a seamless user experience.

Education

B-Tech | IPS Academy, Indore   *2018 - 2022*
Specialized in Computer Science & Engineering

Class 12th Boards | Adarsh Malwa, Shajapur   *2017 - 2018*

Class 10th Boards | M.G. Convent Hr.Sec. School, Shajapur   *2014 - 2015*

Projects

Nanny Services

Built a web application for hiring nannies using React and TypeScript. The platform includes role-based access for families and caregivers, a searchable caregiver database with advanced filters, job posting and management features, and a fully responsive dashboard for managing bookings and messages.

Flatmate Finder

Designed and developed a flatmate and rental property using React, Node.js, and MongoDB. Implemented features for user profiles, property listings, preference-based matching, secure payment gateways, and subscription management. Built an admin dashboard with analytics, content moderation, and revenue tracking, ensuring scalability and smooth user experience.
